DETAILED ACTION

Allowable Subject Matter

Claims 1-11 and 13-14 are allowed in view of the prior art.

The following is an examiner's statement of reasons for allowance:

As to claims 1 and 13, the prior art of record, taken either alone or in combination, fails to disclose or render obvious a device and method for the inspection of a rotating surface, in combination with the rest of the limitations of the claim.

With more specific regard to the claims, the applicant's arguments, dated December 12, 2003, in response to the Office Action dated October 7, 2003 give detailed reasons for the allowability of the claims over the prior art. In particular, the prior art fails to reveal an evaluation unit for determining the velocity of a defect on the surface from the shifted frequency and from this velocity the position of the defect on the surface, in combination with all elements and limitations, and in combination with any analogous method steps, in the rest of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael A. Lyons whose telephone number is 571-272-2420. The examiner can normally be reached on Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gregory J Toatley can be reached on 571-272-2059. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
